

Blue Premier Network Directory

This directory listing provides a list of Blue Premier's network pharmacies. To get a complete description of your prescription coverage, including how to fill your prescriptions, please review the Benefit Booklet and Blue Premier and Blue Premier Access's formulary.

We call the pharmacies on this list our "network pharmacies" because we have made arrangements with them to provide prescription drugs to Plan members. In most cases, your prescriptions are covered under Blue Premier and Blue Premier Access only if they are filled at a network pharmacy or through our mail order pharmacy service. Once you go to one pharmacy, you are not required to continue going to the same pharmacy to fill your prescription but can switch to any other of our network pharmacies. We will fill prescriptions at non-network pharmacies under certain circumstances as described in your Benefit Booklet.

All network pharmacies may not be listed in this directory. Pharmacies may have been added or removed from the list after this directory was printed. This means the pharmacies listed here may no longer be in our network, or there may be newer pharmacies in our network that are not listed. This list is current as of 1/1/2024. Changes to our pharmacy network may occur during the benefit year. An updated Pharmacy Directory is located through your Blue Access for Members portal. You may also call Member Services for updated provider information.

You can get prescription drugs shipped to your home through our network mail order delivery service. For more information, please contact us or refer to the Pharmacy Directory which is located through your Blue Access for Members portal.

If you have questions about any of the above, including instructions on how to submit claims for prescriptions that you had to fill at a non-network pharmacy, please contact us or refer to the Pharmacy section, located through your Blue Access for Members portal.

Pharmacies are listed alphabetically by county. The types of pharmacies in this directory:
