Preventive Drug Benefit Program

Introduction

Blue Cross and Blue Shield of Texas administers the preventive drug benefit for your “metallic” high deductible health plan, which has been designed for use with Health Savings Accounts. If you bought your health plan on your own or get health coverage through your job, your plan has this preventive drug benefit program. It includes categories of prescription drugs that are often used for preventive purposes. If your doctor has prescribed any of them to you or to your HDHP-covered dependents for preventive purposes, your HDHP may pay for the drugs at a \$0 copay before you meet your HDHP deductible.

This guide is being provided as a resource to help you manage your HDHP plan’s prescription drug benefits. It includes some commonly, but not all, drugs that are prescribed for preventive purposes.

The drugs listed in this guide will be reviewed from time to time and are subject to change. Coverage of all medications is still subject to your HDHP limits, exclusions and out-of-pocket requirements (for example, your prescription drug payment levels). Coverage of some medications or drug products may be under your medical benefit. Please verify with your benefit plan if there are any additional requirements before a drug may be covered.

IMPORTANT REMINDER: These drugs could also at times be prescribed for treatment purposes. As a result, the listing of a drug in the Guide does not mean that it will be covered by your benefit plan before your HDHP deductible is satisfied. If your doctor has prescribed a listed drug for treatment purposes (and not preventive purposes) then your plan does not provide coverage for that drug before your HDHP deductible is satisfied.

As each individual’s medical circumstances are different, and because proper classification is necessary for you to ensure you are complying with applicable HDHP tax regulations, it is important for you to confirm the purpose of the prescription with your doctor. Please call the number on your member ID card when your doctor confirms for you that they prescribed one of the listed drugs for treatment purposes so your claims can be processed correctly. **Unless you provide us with this information, claims for the drugs listed in the Guide will be processed as “preventive,” and you or your doctor may be asked by us to provide medical records showing that the drug you’re taking is being used for prevention. Remember, if you improperly classify the drug, it may result in adverse tax consequences so please be sure to take the confirming step to properly classify your claim.**

Please follow these steps to make sure you are properly classifying the purpose of your prescription:

1. Find your drug in the Guide.
2. Talk to your doctor about whether your drug is in fact being prescribed for preventive purposes (and not treatment purposes).
3. If prescribed for treatment purposes, call the number on your ID card to let us know.
4. If prescribed for preventive purposes, there is no need to call.

2026 HDHP-HSA \$0 Preventive Drug List

The preventive drug program currently includes prescription drugs in the following categories:

- Anti-coagulants / anti-platelets
- Depression
- Diabetes medications
- Diabetic supplies
- High blood pressure
- High cholesterol orals
- Osteoporosis
- Respiratory*

The drugs in each category are listed alphabetically on the following pages.

- Generic drugs are listed in **bold**.
- Brand drugs are listed in all CAPITAL letters.
- Some strengths and/or formulations may not be covered.
- Brand names in parenthesis are listed for reference and are not covered under the benefit.

This drug/drug category may also be included under the Affordable Care Act coverage of preventive services. These products have limited or \$0 member cost-sharing (copay or co-insurance), when meeting the conditions as outlined under the regulation and when you use a pharmacy or doctor in your health plan's network. Not all products covered under the ACA are shown. Coverage can vary based on your benefit plan and/or prescription drug list. Call the number on your member ID card if you have any questions and to find out what you may pay.

REMEMBER: Just because a drug is on the preventive drug benefit list, doesn't always mean it is covered. It also doesn't mean that it may be covered by your benefit plan before your HDHP deductible is satisfied. Coverage of all medications is still subject to your plan benefits. Please see your benefit plan materials for coverage details, or call the number on your member ID card.

Please be reminded that Health Savings Accounts have tax and legal ramifications. Blue Cross and Blue Shield of Texas does not provide legal or tax advice, and nothing herein should be construed as legal or tax advice. These materials, and any tax-related statements in them, are not intended or written to be used, and cannot be used or relied on, for the purpose of avoiding tax penalties. Tax-related statements, if any, may have been written in connection with the promotion or marketing of the transaction(s) or matter(s) addressed by these materials. You should seek advice based on your particular circumstances from an independent tax advisor regarding the tax consequences of specific health insurance plans or products.

*Select plans will not have this category until the plan renews in 2026.
